

# Questionnaire to order WIL250 design documents

This questionnaire is intended to clarify the background of the planned use of the WIL250. It also shall help the project-team to understand the motivation and scope of the interested persons/organisations. If the conditions fit, we will be happy to provide the design documents and instructions.

Please answer below questions as best as possible. Any additional information, sketches and photos are welcomed:

Name	
Address	
eMail	
Phone-number (optional)	

Intended site of installation	
Country, Region, Place ?	
Geographical conditions of installation? Stream, waterfall,...	
Amount of water in Liter/sec min/max ?	
Useable drop of water (in meter) ?	
Distance to to the place of consumer	
Additional information, sketches and photos:	

Additional Information	
What is your motivation to use the WIL ?	
Intended use of the Electricity ?	
which skills do you have to build the WIL ?	
How did you hear about the WIL-project ?	

We do state, that the WIL-systems are intended to be used in development-aid cooperations. Prior to any use it has to be clarified that the installation and the operation will be in line with the local requirements for legal, safety and environmental requirements. It is the responsibility of the user to check this requirements.

We clearly alert, that using the WIL250 might be dangerous in terms of mechanical behaviour (forces, rotation speed) as well as electrical impact (high Voltage, Current)

The project team (specially Engineers Without Borders and the University of Applied Sciences Regensburg) do not cover any warranty for the correct behaviour and functioning of the product !

The development was done in a non-profit approach

For support and further development the project-team needs also financial support.

For non-profit NGO's aiming on technology transfer and improving life conditions in developing countries we are happy to provide free support

For private use we ask for a financial contribution

please check: I'll use it within a Non-profit NGO  NGO:  
I'm private. I contribute with the amount of:  €

Please send the questionnaire to [regensburg\(at\)ingenieure-ohne-grenzen.org](mailto:regensburg(at)ingenieure-ohne-grenzen.org)

We will contact you asap and send the documents
